

# YOUTH TRANSFORMERS

*Transforming Our Community*

## WHAT DO WE DO?

Youth Transformers is an online platform that facilitates, empowers and motivates young change makers to engage in community services. From conceptualization to execution of projects, we have leveraged technology to aid the idea of giving back to the society.

## KEY FEATURES OF OUR PLATFORM

Project Ideas and suggested guidelines

End-to-end Project Management

Rewards

User-friendly interface

## WHY DO WE EXIST?

Service delivery and service learning activities empower both, the society and the volunteers. While community service has emerged to be a mandatory element in school curriculum in IB schools, the scenario in India is still challenged by access to resources and information. This is where “Youth Transformers” seeks to enable and encourage students in order to leverage the demographic potential of our country towards greater change in the society.

---

Youth constitutes about 1/3rd of India's population

---

Only 1.5% of population in India volunteers (Ministry of Statistics, 2012)

---

60% population in India faces challenges in finding information about volunteering opportunities and avenues (MoYAS, 2017)

---

Youth civic engagement identified a key issue in India (Ministry of Statistics and Programme Implementation, 2017)

---

# RISE

*Real Impact through Social Engagement!*

RISE invites all the young agents of change and future leaders to come together for development of our society. It is a competitive championship for students in the age group 12 to 18 for Delhi NCR schools, housing societies and individual students for their community service projects. With a wide range of suggested community projects on our platform, participants can choose any cause to make an impact. Each participant will have access to Youth Transformers platform to track and communicate their service efforts and manage their teams. The Projects with the highest participation and maximum impact will be recognized and rewarded.

## **BENEFITS:**

Research suggests that volunteering in community projects can cultivate high personal, psychological and academic benefits for students and young adults as they reflect on matters of public concern. Through RISE, students can better demonstrate their mandatory service efforts and get additionally rewarded for it.

### **Students**

- Recognition (Certificates) and Prizes
