My letters of recommendation

Welcome to your own personalized youth activism journal!

Before you begin, here are some tips and tricks to keep you diligent and meticulous!

- Journal everyday that you work, it can be simply two or three lines.
- Make your writing as personal as possible, it allows you to revisit moments that will no doubt shape who you are.
- Youth activism is extremely fruitful but often we also make mistakes, do not hesitate in writing down where you've gone wrong; you will only learn from this.
- Remember to take pictures so you can paste them in your journal!
